

Black Horse Distribution Center	Wright Ebersole LLC (based in Media)	Lancaster	East Cocalico Township	\$10,000,000	The Black Horse Distribution Center project aims to streamline this bakery's logistical operations by building a state of the art distribution center directly across from this bakery's manufacturing site. The project is comprised of two components: 1) property acquisition; and 2) demolition of the existing structures and construction of a new distribution center.	
Codorus Greenway	York County Economic Alliance	York	York City	\$10,000,000	The project includes improvements between King St. and the rail bridge north of Philadelphia St. in the City of York. Construction will include repair and reconstruction of flood walls to expand the capacity of the levee system and create riparian buffer areas adjacent to the creek and allow for an ADA compliant access point; remediation of contaminated soil; and in-channel improvements, including construction of a cross vein in the creek.	
MannaPro Redevelopment	Redevelopment Authority of the City of York	York	York City	\$10,000,000	The project will redevelop the site into a mixed-use manufacturing and hospitality/retail site. It includes demolishing the current building and infrastructure installation; steel and structural shell; mechanical/electrical/plumbing; interior finishes; fire protection; and life safety systems.	
City of Lebanon Transit Intermodal Center and Parking Garage	City of Lebanon	Lebanon	Lebanon City	\$8,421,801	The project will acquire a property at 735 Cumberland Street to renovate for city offices and provide space to HACC, Lebanon Campus. Funds will also be used for construction of a new 4 level parking garage in the downtown, renovate an existing building to meet the needs for city office, and construct an attached secured parking garage for the police department. The secured parking garage for police provides safer transfer of offenders preventing contact with the general public. The garage will be utilized for storage of vehicles to be examined and processed as evidence in criminal cases.	
Harrisburg's MLK City Government Center	City of Harrisburg	Dauphin	Harrisburg City	\$8,000,000	Phase 1 will make ADA accessibility improvements to restrooms on the 1st and 2nd floors of the building; renovate City Hall Chambers on the 1st floor that will provide ADA accessibility; create a small business incubator space on the 1st level; and implement ADA improvements in the lounge areas on floors 2-4. Phase 2 will focus on improvements to public facing departments on the 2nd floor. Phases 3 & 4 are similar to Phase 2, but for the 3rd floor (Phase 3) and 4th floor (Phase 4).	
Community Progress Council Integrated Services Building	Community Progress Council, Inc.	York	York City	\$7,248,910	The project will construct a new, modern, integrated service delivery building. This new building will house Head Start and Early Head Start classrooms; Women, Infants & Children (WIC); Self Sufficiency; Housing Counseling & Education; Workforce Development; and Foster Grandparents. It will purchase and construct parking lots to meet local code requirements and to provide safe and adequate parking for employees and program participants.	
Ballpark Commons Northern Gateway	York County Industrial Development Authority	York	York City	\$6,000,000	The project will have two major components: 1) the demolition of blighted and underutilized properties and construction of a new building; and 2) improvements to PeoplesBank Park, including updating mechanical and lighting systems, and user amenities. The project will improve viability and appeal of the entire downtown business district by enhancing first impressions of downtown York at its northern gateway.	

Hall of the American Soldier Visitor and Education Center	Military Heritage Foundation d/b/a Army Heritage Center Foundation	Cumberland	Middlesex Township	\$5,000,000	The project will complete an expansion to the existing Visitors' Education Center (VEC) facility. The addition will add 30,000 square feet to the existing facility to include: a museum gallery to support exhibits; multipurpose rooms of various sizes for educational programs, special events, and conferences; and a catering kitchen to support events. Construction activities include: demolition; sitework & seeding; cast-in-place concrete; masonry; structural steel; rough carpentry; millwork; thermal insulation; roofing & siding; joint sealants; doors/frames/hardware; coiling doors; aluminum & glazing; gypsum board assemblies; ceramic tile; acoustical ceilings; flooring; painting; specialties; equipment; furnishings; fire protection; plumbing; HVAC; electrical.
Atlas Building Redevelopment	Mighty Group Holdings, LLC	Dauphin	Harrisburg City	\$5,000,000	This project will entail remediation of the building's exterior, demolition of the interior, and vanilla box construction and fits-outs. This will include demolition, excavation, steel and structural reinforcement, and a sprinkler system. In addition, the adjacent parking lot will be incorporated to create green space and sections repaved to provide much needed parking.
Judicial Center and Public Parking in Midtown Harrisburg	400 Reily Street Management	Dauphin	Harrisburg City	\$5,000,000	The project will demolish the existing row homes, and redevelop the site as a mixed-use development with a 300,000 SF, 7-story building consisting of 85 residential units, a 23,000 SF grocery store, restaurant, coffee shop, office space, and a 500-space parking garage. The exterior of the project plans to feature street-level retail with an inviting façade and streetscapes. Aside from demotion, erosion control, utilities, environmental work, and actually construction, there will also be removal of a layer of unsuitable fill to a depth of 10' below existing grades.
Susquehanna Union Green	Hawthorne SPE LLC	Dauphin	Susquehanna Township	\$5,000,000	The project will develop the site, which includes: (a) creation of public greenspace and parks, including walking trails, and amphitheater, and central green; (b) construction of stormwater management facilities, including floodplain restoration/wetlands preservation work; (c) creation of the site's "street walls," to shield or buffer parking areas and buildings along the perimeter of the site; (d) construction of pedestrian walkways throughout and along the perimeter of the site; and (e) construction of and improvements to Progress Avenue, Linglestown Road, and Paxton Church Road.
Rebman's Building Redevelopment	OZFund Inc.	Lancaster	Lancaster City	\$5,000,000	The project will demolish existing structures and redevelop the Rebman's site in south Lancaster City to create safe, affordable, and sustainable living and commercial spaces geared towards Lancaster's working families. The redevelopment plan calls for the construction of 72 affordable housing units and a 14,684 SF commercial space in a new, 4-story, 88,000 SF mixed-use building, and possible new childcare facilities to be constructed in a separate building on-site.
Warwick School District Facilities Capital Improvement Program	Warwick School District	Lancaster	Warwick Township	\$5,000,000	The project has three components: 1) building exterior and interior renovations; 2) replacement of building mechanical systems; and 3) upgrades to the athletic complex. Targeted building renovations include: exterior walls, roofing systems, general structure; windows and doors; interior walls; bathrooms/accessibility; casework; finishes (paint, ceilings, flooring) and locker rooms. System upgrades: mechanical; electrical; fire protection; and plumbing. Proposed upgrades to the athletic complex: the construction of a new fieldhouse; replacement of bleachers; turf hockey field; and additional parking.

North West Triangle York Plan 2.0 Innovation and Equity District	3tc robotics llc	York	York City	\$5,000,000	The York Plan 2.0 Innovation and Equity District project will get the pad ready and construct the first, 120,000 square foot anchor building. Ultimately, it will be a 750,000 square foot, new construction campus for manufacturing, defense and tech companies, government agencies, educational institutions, workforce development and training, and R&D as well as Startup companies with a focus on equity and inclusion, robotics, artificial intelligence, quantum computing, advanced manufacturing, and defense technologies as it relates to American independence and resiliency.
Springettsbury Township Police and Administration Building	Springettsbury Township	York	Springettsbury Township	\$5,000,000	The project will construct a new police station and renovate the administration building. This will expand evidence storage, enable secure parking for police vehicles, and improve IT and energy usage by the township. The project will also incorporate a new training center with advanced IT capabilities for use by the township, local first responders, and the public and a secure area for tax collections. The existing police station will also be demolished.
Susquehanna Discovery Center	Susquehanna Heritage Corporation (d/b/a Susquehanna National Heritage Area	York	Hellam Township	\$4,700,000	The project includes adaptive reuse of the historic Mifflin farm which includes a farmhouse and bank barn, dairy barn, and other outbuildings. The barns will be renovated and adapted for the Susquehanna Discovery Center, including interpretive exhibits, program space, observation tower, gift shop, café, terrace, and offices. The farmhouse will be restored with program exhibits. The landscape will be enhanced with interpretive trails, along with access drives, parking, walks, landscaping, utilities, and other visitor infrastructure.
Penn State College of Medicine Comparative Medicine Research Facility in Hershey II	The Pennsylvania State University College of Medicine	Dauphin	Derry Township	\$4,250,000	This project has 3 major components: 1) ABSL3 Biohazard Suite, 2) Barrier Wing Expansion, 3) Germ-Free Facility. Roughly 25,000 SF of existing facility space will be renovated to support the College's research facility needs. 20,000 SF of additional space will be constructed to accommodate each of the three components. This project will enhance the College of Medicine's ability to support groundbreaking research in all medical fields including cancer treatment.
Roth's Church Road Community Partnership	YMCA of York and York County	York	Spring Grove Borough	\$4,211,685	This project will establish a multi-generational community hub by repurposing a former school building by repairing the roof and outfitting the facility for members of the Roth's Church Road Community Partnership, including renovation and breaking out bathrooms, a community space, fire suppression system, and utilities.
Bridge - Harrisburg J.E.D.I.I. Center	The Bridge HBG, LLC	Dauphin	Harrisburg City	\$4,000,000	The project will undertake complete renovation (including demolition, HVAC/mechanical, electrical, plumbing, and fire protection) of the first floor of the former Bishop McDevitt High School for The JEDII Center. The Center will contain flexible spaces and facilities for a multitude of life-changing educational programs and events. It will contain a community concert/lecture hall, a library, co-working space, maker space, a rooftop garden, a community kitchen and fresh foods cafe, and a full-service medical clinic.
Arconic Lancaster Mill Expansion	Arconic Corporation	Lancaster	Manheim Township	\$4,000,000	The project will purchase and install capital equipment to increase metal processing. It will expand the existing continuous rolling mill. This adds a station to an existing 3 piece of equipment. The scope will include coolant reuse and filtration system increases, fire suppression expansion, logic control system updates, and fume and mist abatement system expansion. Also included is the addition of the 18th batch processing oven to the department. Existing equipment will be relocated to allow for the new furnace. Emission control devices are also part of this install. The project will also increase the chip handling capacity and speed to address the higher through put rates.

15EPhiladelphia--York	15 E Philadelphia LLC	York	York City	\$4,000,000	The project will renovate the former York Dispatch/Rudy Art Glass buildings which includes reconstruction and improvement of roofs, windows, HVAC, plumbing, electrical, sprinkler, elevators, and exterior surfaces. Building will be expanded vertically to add additional square footage. Approximately half will transition to 26 rental residential units; street level will be improved into commercial retail/hospitality, office space, and parking.
Crispus Attucks York African American History Museum	Crispus Attucks York	York	York City	\$4,000,000	The project will build a museum at the vacant, Crispus Attucks York-owned lots. The museum will contain three floors with a lower level and be approximately 19,450 SF.
Emanuel Community Development- Veterans Housing and Health Care	Emanuel Community Development Corporation	York	York City	\$3,250,000	The project includes the demolition, abatement, and redevelopment of a blighted St Joes School building. The renovation will create 10 apartments for veterans, and space for an accessible health care clinic, recreation area, food bank, and workforce development services. Dental and vision services along with behavioral health are also be a component. The renovation of this site allows us to address all the veterans needs under one location so they do not get discouraged accessing needed departments and services for which they are eligible.
Sadler Health Center Trindle Road Mechanicsburg	Sadler Health Center Corporation	Cumberland	Hampden Township	\$3,220,881	The project will renovate the 21,800 SF building currently on the site. The large, open warehouse will be converted into offices for medical, dental, behavioral health, and substance use treatment.
Allenberry 2.0 Restoration	Allenberry Resort & Lodging, LLC	Cumberland	Monroe Township	\$3,000,000	This project can be broken down into several target initiatives. First is the creation of a coworking space for companies and individuals who work remotely. A theater will be renovated to serve as a place to conduct seminars, as well as host a variety of entertainment. The transition from single bed hotel rooms to extended stay furnished rentals will occur for several buildings around the property. Finally, a variety of amenities will be constructed or improved to accommodate guests of the resort such as an outdoor wellness area, lifestyle center, and a refurbished working farm.
Children's Aid Society Childcare Center	Children's Aid Society SOPA COB, Inc.	York	York City	\$3,000,000	The project will include design, permitting, construction, infrastructure, redevelopment and related cost for construction of a two-story, 7,500 square footprint, 15,000 square foot, building with associated parking areas and stormwater management. The building will include a multi purpose community education space, a conference room, shared offices, shared classrooms, a commercial kitchen, a residential and daycare state licensed childcare facility including bedrooms, bathrooms, laundry, recreational space, creative art & play therapy spaces, including music and sensory rooms. The project includes a 7,500 square foot fenced-in outdoor play yard.
York County History Campus - Library & Archives	York County History Center	York	York City	\$3,000,000	The project will create climate controlled, high-density storage housing 400,000 two-dimensional artifacts. It will also complete the 3rd floor coal bin exhibit gallery. Additional renovations include transformation of the garage into a workshop that supports the facilities and maintenance functions for the campus, and upgrades to the receiving and storage areas to be able to obtain important AAM accreditation.
Hamilton Health Center in Steelton Borough	Integrated Development Partners, LLC	Dauphin	Steelton Borough	\$2,500,000	The project will construct the Hamilton Health Center which will include medical exam rooms, administrative offices, and clinical spaces to support Hamilton Health's primary care, mental health, substance abuse and WIC program services. Building construction includes: concrete; masonry; structural steel; thermal and moisture protection; fire protection; and plumbing, mechanical and electrical systems. The interior construction includes: framing and drywall, doors, finishes, casework, sprinklers and MEPs.

Presbyterian Apartments Improvement	Presbyterian Senior Living	Dauphin	Harrisburg City	\$2,500,000	The project will replace the Presbyterian Apartments'electrical system that supports the fire system and electrical control/distribution for the entire building and other infrastructure improvements such as upgrading the fire protection system, replacing the roof, and interior improvements.
Swatara Township Municipal Complex Facility	Swatara Township	Dauphin	Swatara Township	\$2,500,000	Swatara Township is in need of a new Fire and Police Public Safety Building. The project will construct two facilities at the Eisenhower Boulevard site, one for the Public Safety Department, support structures for the Highway Department; and renovate the existing municipal building. The building will be 50,000 SF and will add secure rooms for meetings with crime victims, provide ventilation systems, decontamination areas, wash-down areas and storage areas, joint training facilities for fire and police, covered parking area, and an emergency management operations center.
New Lancaster Public Library at Barney Ewell Plaza	Lancaster Public Library	Lancaster	Lancaster City	\$2,500,000	This project will finish the interior of the 38,600SF space. It will build the walls and ceilings, the electrical and HVAC systems, flooring, doors and windows, plumbing, and finishes. This will create the adult library and public computer stations, separate children's and young adult libraries, community meeting and program spaces, small study rooms, collections processing and administrative areas, and public restrooms.
Byrnes Health Education Campus Expansion	Susan P. Byrnes Health Education Center, Inc.	York	York City	\$2,500,000	Project includes constructing much needed improvements and additions to their center. Demolition of the existing garage will take place allowing for construction of a new garage and storage space. Internal renovation will be done to increase and expand current restroom facilities. A major portion of this project is a two story addition which will allow for consolidated office space, allowing for increased collaborative efforts. The reception area will also be impacted by construction as it becomes more streamlined with updated security features.
UPMC Hanover Emergency Dept (ED) and ED Behavioral Health Renovation	UPMC Hanover	York	Hanover Borough	\$2,500,000	The project will construct a new, secure behavioral health/crisis suite within UPMC Hanover's existing ED. The purpose of the proposed renovation is to provide a safer space for patients who are experiencing behavioral health or crisis episodes, additional treatment rooms to accommodate more patients and those with longer lengths of stay, a safer treatment area for clinicians and staff, and seclusion rooms that meet the current building code standards. This renovation will be accomplished with minimal disruption to the main ED.
Appell Center Infrastructure Revitalization (Strand Capitol)	Strand Capitol Performing Arts Center	York	York City	\$2,326,881	The project plans several upgrades to maintain the Strand Theatre:replace heating and cooling units to provide adequate air recirculation and filtration; replace the fire detection/suppression system; upgrade lighting on the stage; upgrade electronic marquee; renovate and redesign concession area; install motorized assist doors; construct lower counters; restore the historic ornamentation.
ACHS Museum, Archives & Education Center	Adams County Historical Society	Adams	Cumberland Township	\$2,000,000	The project includes the construction of a new community history center that will provide a secure location and climate controlled environment for the Adams County Historical Society's rich collection of priceless artifacts. The proposed facility will include an artifact-driven interactive exhibit gallery, an education center, and a reading room and archive.
Organic Remedies Grower and Processor Facility	Organic Remedies, Inc.	Cumberland	Middlesex Township	\$2,000,000	This project will renovate and expand existing organic greenhouse facilities to produce a state of the art medical marijuana growing/processing facility that will enable the production of 4-5 crops per year. This includes the construction and installation of: supplemental LED lighting; electrical installation; heating system upgrades; shade system modification; irrigation system modification; ground leveling; humidity control and ventilation; environmental control system modifications; exterior wall construction to mount Van Dyk air handling units; interior walls to separate growing zones; grow troughs; and the installation of necessary security and access control systems.

Removal of Blight and Redevelopment of Carlisle Pike Intersection	Koloman Development LLC	Cumberland	Hampden Township	\$2,000,000	The project will consolidate four site locations and demolish four structures and construct one new structure and conduct much needed traffic improvements. Specifically, the addition of a fully functioning middle turn lane onto St Johns Church Road, spanning over 2500 feet, as well as a fully functional right turning lane onto Carlisle Pike is planned. The project will also include the additional sidewalk infrastructure for pedestrians.
Harrisburg Events Center	2201 NFS, LLC	Dauphin	Harrisburg City	\$2,000,000	The project will renovate the first floor of the Historic Horace B. King Mansion to prepare the space to serve as an event venue. Renovations include partial roof replacement and replacement of the building's original windows and glass doors. Further renovations include: replacing the boilers, installation of a fire pump and building-wide sprinkler system, exterior façade and hardscape restoration, and replacement of the original windows and glass doors. The 3rd floor will be converted to hospitality suites to support the events center. The basement will be renovated to include a kitchen for meal preparation/distribution, office, and meeting space.
Hershey Ice Plex	Derry Township ICDA	Dauphin	Derry Township	\$2,000,000	The Hershey Ice Plex Project involves the construction of two indoor rinks with seating for spectator events on approximately twelve acres of land. The site will also accommodate related locker rooms, meeting rooms, and common areas, and associated parking.
Pleasant View Communities Cultural Center	Pleasant View Communities	Lancaster	Penn Township	\$2,000,000	The project includes the vertical construction and interior fit-out of the Pleasant View Communities Cultural Center that will incorporate advanced sustainability technologies such as hybrid ventilation, rain harvesting, solar energy, and geothermal capabilities. It will have space for events and gatherings, maker space/artesian studios, and a therapeutic recreational program for disabled individuals. The public library will also be relocating to this building.
Washington Township Municipal Building - Phase I	Washington Township	Franklin	Washington Township	\$2,000,000	The proposed new municipal office building to be constructed in this project will house administrative offices, a tax collector, and a police station. The building will be centrally located in the heart of the township's population and will provide improved access for citizens. Activities include: Site work, environmental controls, utility work, & construction.
Northern Adams County Childcare & Community Health	Bermudian Springs School District	Adams	Huntington Township	\$1,500,000	The project will renovate an old middle school on the BSSD campus into a high-quality, education-focused daycare facility, as well as the create a clinical office space for a community health facility. The project will also upgrade the locker rooms for the neighboring stadium and provide the necessary parking to support the daycare and health offices.
Market Street Harrisburg Events Pocket Park	Market Street Quad, LLC	Dauphin	Harrisburg City	\$1,500,000	The project will: demolish 2 blighted properties, including hazardous materials mitigation, and renovate 1 additional building (install fire alarm, sound & CCTV equipment. Hang string lights, 4 glass overhead doors to outside/park; construct bar; rehab exterior w/ metal siding); create a professional performance venue with a stage (stage, concrete patio/deck, permanent benches, planter boxes, trees, outdoor string lights, artificial turf w/ asphalt binder, fencing, gates, walkway pavers, asphalt paving. Paint existing masonry walls & facade, add support frame & metal coping cap to façade), sound/lighting equipment, outdoor seating & indoor facilities for staging, catering & storage.
West Hanover Township Municipal Complex	West Hanover Township	Dauphin	West Hanover Township	\$1,500,000	The project will construct a 15,000 SF municipal complex project which will house several township departments including: administration, buildings/code enforcement, parks and rec, public works, West Hanover Water and Sewer Authority, and Stormwater Authority.

Lancaster General Hospital Cardiology Expansion	Lancaster General Hospital	Lancaster	Lancaster City	\$1,500,000	The project will demolish parts of the second floor of the vacated Catheterization/Electrophysiology Lab support spaces, the existing equipment storage space, and the existing corridor, a total of 6,883 SF. The space will then be renovated to accommodate eight pre/post patient bays for the Cath/EP procedures, as well as clinical support space to service the patient areas, creation of a new electrical closet, and a new data closet/technology distribution room. This phase also includes HVAC, electrical, plumbing, fire protection construction, and new finishes in the existing corridor.
National Watch and Clock Museum Facility Renovation	National Association of Watch and Clock Collectors, Inc.	Lancaster	Columbia Borough	\$1,500,000	The project will retro fit the existing HVAC system. This includes demolition of existing major HVAC equipment, provision and installation of new HVAC equipment (to include 4 air handling units, 2 high efficiency boilers and pumps, 4 humidifiers, and a new digital control system), and provision and installation of all boiler piping, ductwork, chilled water and hot water piping, insulation and accessories, and HVAC start-up.
Air Dynamics Industrial Systems Corporation	Air Dynamics Industrial Systems Corporation	York	York City	\$1,300,000	The project will improve and preserve the York Manufacturing facility making it energy efficient, rehabilitate the exterior including brick renovations, insulation, interior lighting, fire alarm, heating system. The property will receive updates to the electrical systems, concrete flooring repairs, insulation, roofing system and building security. It also includes manufacturing support equipment, testing equipment, manufacturing productivity support materials, internal communication remote conferencing equipment, infrastructure repairs to cranes, metal preparation and painting, and employee training.
CRPAC Reconstruction & Rehabilitation (Carlisle Regional Performing Arts Center)	Carlisle Regional Performing Arts Center	Cumberland	Carlisle Borough	\$1,260,500	The project will renovate the Center, including: replacing the exterior terra cotta panels; updating the building's lobbies, concession area, and bathrooms; fitting the house and balcony with new seating and an upgraded technical booth & sound paneling. The stage will have additional wing space and dressing rooms, and backstage will be leveled out for safety. A green room will be added to basement. Larger loading docks will be constructed to accommodate load-in. Upstairs, a smaller stage and rehearsal area will be renovated. Finally, office and flex spaces will be reconfigured.
Barn Rebuild	Prairie Fire Farms Foundation	Lebanon	East Hanover Township	\$1,040,873	The project demolish the current 35 stall barn, and the rebuild a new 35 stall barn, equine rehabilitation area, and other facilities. The rebuild includes regrading of the plot of land for water run off, new plumbing and electrical in the barn, rebuild of the 35 stall, equine rehabilitation area, and other facilities that is completely ADA compliant.
Harrisburg Scottish Rite Cathedral & Theatre Preservation - RACP 2021/1 - Phase I	Harrisburg Scottish Rite Cathedral and Theatre / Children's Dyslexia Center of Central Pennsylvania	Dauphin	Harrisburg City	\$1,019,371	The purpose of the project is to target grant resources to the most capital intensive, safety, mechanical, and engineering needs of the facility which was constructed in 1954. Renovations include replacement of all 17 roofs on the building with new insulation and PVC membrane roofing; replacement / automation upgrades to the original HVAC system; replacement of 66 windows; replacement of front and rear entrances with ADA accessible automatic doors; modernization of the building's single elevator system.
Dauphin County Library System Walnut Street Harrisburg Expansion	Dauphin County Library System	Dauphin	Harrisburg City	\$1,000,000	The project will construct an interior connection between the current McCormick Riverfront Library and the newly acquired Haldeman Haly House. It will renovate the Haly House to support administrative offices, provide community, conference and private counseling rooms, and renovate the lower floor of the existing library providing space for a children's center and welcome center.
Janus School STEM Expansion	The Janus School	Lancaster	Mount Joy Borough	\$1,000,000	The project will construct four additional classroom spaces. These flexible classrooms will provide a much needed space as well as upgrades in security, technology, and facilities including: updating the security and announcement systems, replacing aging Ethernet wiring, upgrading HVAC filtration and software, replacing carpet, and updating the multipurpose sound and projection technology.

Renfrew Gristmill Reconstruction	Renfrew Museum and Park	Franklin	Washington Township	\$1,000,000	The project constructs a new and functioning gristmill at the park location in Washington Township, Franklin County. This reconstruction of a gristmill will take place on the ruins of the original structure, and include timber frame and restroom building, millworks and labor, pump system engineering and installation, and site utilities.
Freedom Square	Pasch Companies	York	Conewago Township	\$1,000,000	The project will advance a floodplain restoration project and other applicable stormwater management measures to accommodate the development of the 450-acre Freedom Square project. The floodplain restoration project consists of 13,400 linear feet of stream, covering an area of roughly 28.7 acres. This includes design and engineering, site clearing, excavation, stabilization, and planting activities associated with the floodplain restoration and related stormwater management facilities.
Hanover Trolley Trail	York County Rail Trail Authority	York	Heidelberg Township	\$1,000,000	This project converts a former railroad corridor to a public, multi-use rail trail connecting two large boroughs in York County. It will reconstruct and regrade the alignment for the trail, construct the trail subsurface and surface, and incorporate trail crossings along 1.5 miles of the Hanover Trolley Trail.
York County Libraries Capital Project 21	York County Libraries	York	York City	\$1,000,000	York County Libraries' capital project includes improvements on three project sites. Martin Library: decades-old sliding doors in the children's department will be replaced; the building will receive modernized weatherization; the interior of the library will be renovated with space design enhancements and improvements. Kreutz Creek Library: renovations to the donated Hellam Township building to create a library facility. Kaltreider-Benfer Library: the existing library in Red Lion will be expanded by building on the concrete pad area adjacent to the facility. The expansion will create space for the children's library and establish a dedicated teen center and area for private study and silent reading.
City of Lancaster Police Station Renovations	City of Lancaster	Lancaster	Lancaster City	\$950,000	The project will renovate the Lancaster City Police Station parking deck, upgrade site security, and replace the wooden windows with vinyl. Capital improvements include structural repairs to both horizontal and vertical elements of the parking structure, replacement of the waterproofing traffic membrane system, drainage improvements, cleaning, line striping and other miscellaneous repairs. The existing aluminum-clad wooden windows will be replaced with operable, solid aluminum replacement units. Security Upgrades will include exterior floodlights for greater perimeter visibility, the addition of an exterior gate at the W. Chestnut St. ramp, and supplemental site fencing, roll-down security gates at points of pedestrian access, and camera system upgrades.
PSU-HBG Bio-Behavioral Research and Education Clinic in Middletown II	The Pennsylvania State University Harrisburg Campus	Dauphin	Lower Swatara Township	\$419,032	The Bio-Behavioral Research and Education Clinical Care Center project will involve a mix of interior demolition, abatement, and renovation. The Center will occupy 6,000 SF Wrisberg Hall Annex. The project components include new exterior windows and doors, interior demolition and abatement, a new fire alarm system, interior finishes and roof, restroom renovations and major systems work on HVAC and power distribution. New interior spaces include patient reception and waiting areas, individual and group therapy rooms, classrooms, and an audiology chamber.
TOTAL REQUESTED				\$195,119,934
